Vates Smart Home: Beyond Home Automation

> Home Comfort and Monitoring Solutions

Vates® Smart Home measures energy consumption of homes and checks for telemetrics such as humidity levels or temperature, all in real time. This solution allows for a more efficient use of energy, while minimizing costs and helping the environment in the process.

> Home Security and Prevention

Similar to an alarm system, **Vates®** Smart Home enables sensors in locks, windows and other areas in your home or office to trigger an alarm and immediately notify the user when movement is detected or a door or window is opened.
